

GEORGE W. BUSH AN HISTORIC LEADER

½ a Story = 1 Complete Lie

**If CNN & FOX News were to report
all the news, would any American
support this man?**

With Bush as President, America has:

- Experienced the worst national security failure in its history
- Reversed the greatest period of prosperity in its history
- Depleted the largest fiscal surplus in its history
- Created the largest deficit in its history
- Lost the most jobs during a single presidential term in its history
- Invaded and occupied a nation that did not harm or threaten the US for the first time in history.
- Rolled back more environmental protection laws than any other president in history
- Denied the public access to more information than any other time in its history.
- Appointed more convicted felons to government posts than any other president in history
- Held more people captive without Constitutional rights than at any other time in its history
- Proposed a Constitutional change that would take away civil rights for the first time in its history
- Insulted and alienated more of it's allies than ever before in its history
- Lost the respect of more people around the world than ever before in its history
- Replaced more science with religious ideology than at any at other time in its history
- Divided the nation and the people of the world like never before in its history
- Fostered a global climate based on fear and hatred not seen on this planet since the Nazi regime

Has anything on this planet other than the financial wealth of Halliburton and the corporate friends of the Bush administration improved under the leadership of George W. Bush? **Anything?** Please tell us. We would like to know. We would love nothing more than to respect and trust our leader, but we can not seem to come up with a single reason to do so.
