

SHUT THE DOOR!

Note to the shopkeeper:

Patriots care about this nation. Patriots are responsible citizens. Be a patriot. Be responsible. Shut the door!

When you keep your doors open your air conditioner is forced to work extra hard and consumes an unnecessarily high amount of electricity. You are wasting energy, contributing to pollution and you are increasing your operating expenses. By paying more for your electricity your operating costs rise. When your costs rise your prices must rise to reflect this.

Please save yourself and your consumers money by shutting your front door when your air conditioner is on. Please show consideration for the community and for the planet by conserving energy and by helping to prevent another blackout.

Thank you!
