Please take a few minutes as I point out a few small aspects of the silliest, yet most widely accepted 9/11 conspiracy theory to date.

I point out two aspects of this ridiculous theory and I expose the people responsible for creating it. I hope people will do their own research and realize how this one party is responsible for the most widely believed, yet easily debunked 9/11 conspiracy theory to date.

Please watch this until the end where I expose who is responsible for this laughable theory.

With all the time that passed, and all the opportunity for people to research these claims on their own, it is astonishing how many people still fall for the most popular 9/11 conspiracy "THEORY" out there.

Please...watch this until the end...

Thank you,
