

When 9/11 Commission Chief Counsel, John Farmer, released his book, *The Ground Truth*, debunking his own 9/11 commission report and was supported by Chairman Thomas Kean and commission member Senator Bob Kerrey with no dissent, the cover story of 9/11 died.

This leaves us with these inescapable facts:

- * We no longer have an official answer to questions about 9/11.
- * Perjured testimony and falsified information given to the original commission is a criminal act and demands a Grand Jury investigation and Special Prosecutor.
- * Hundreds of respected leaders of the military, law enforcement, intelligence and scientific communities question the credibility of an investigation now proven beyond a doubt a conspiracy in itself.
- * The institutions of government, including all 3 branches, Executive, Judicial and Legislative have combined in an unexplainable way in their failure to respond to circumstances that legally require action.
- * The press has continued a pattern of distortion of facts, suppression of news and has engaged in a systematic campaign of deception.
