

Political Leaders for 9/11 Truth (pl911truth.com) is today being launched as the latest formal group calling for a new investigation into the events of September 11, 2001. The organization is headed by Councilor (Senator) Yukihiisa Fujita of Japan and former Senator Karen Johnson of Arizona.

This initiative is formed around a petition asking President Obama "to authorize a new, truly independent, investigation to determine what happened on 9/11."

Political Leaders for 9/11 Truth thus joins other concerned citizens' groups calling for a new investigation, including Architects and Engineers for 9/11 Truth, Firefighters for 9/11 Truth, Lawyers for 9/11 Truth, Medical Professionals for 9/11 Truth, Pilots for 9/11 Truth, Religious Leaders for 9/11 Truth, Scholars for 9/11 Truth and Justice, and Veterans for 9/11 Truth.

Independent researchers from these professions have established beyond any reasonable doubt that the official account of 9/11 is false and that the official investigations have been cover-up operations.

Senator Yukihiisa Fujita explains the new initiative: "Thus far there has been no response from political leaders in Washington or in other capitals around the world. Political Leaders for 9/11 Truth has been formed to encourage such a response."

The organization is being launched with 20 charter members, including a former US governor, a former US senator, former US representatives, and former and present members of the British, German, Japanese, Norwegian, and European parliaments.

Charter member Robert Bowman, former head of the "Star Wars" program, explains the continuing relevance of the issue: "The 9/11 Tragedy has been used as the excuse for two deadly wars of aggression, for taking away our rights, and for committing war crimes that have undermined America's reputation. Only by exposing the truth about 9/11 can we end this madness."

Political Leaders for 9/11 Truth invites other people who hold, or have held, a political office---whether elected or appointed, whether municipal, state, provincial, national, or international--- to sign the petition at pl911truth.com .

Senator Johnson sums it up: "The organization believes that the truth about 9/11 needs to be exposed now---not in 50 years as a footnote in the history books---so the policies that have been based on the Bush-Cheney administration's interpretation of the 9/11 attacks can be changed."
