

A multi-agency SWAT-style armed raid was conducted this morning by helmet-wearing, gun-carrying enforcement agents from the LA County Sheriff's Office, the FDA, the Dept. of Agriculture and the CDC (Centers for Disease Control).

Law enforcement demanded that all customers (members) of the store vacate the premises, then they demanded to know how much cash James had at the store. When James explained the amount of cash he had at the store -- which is used to purchase product for selling there -- agents demanded to know why he had such an amount of cash and where it came from.

James was handcuffed, was never read his rights and was stuffed into an unmarked car. While agents said they would leave behind a warrant, no one has yet had any opportunity to even see if such a warrant exists or if it is a complete warrant.

Law enforcement then proceeded to destroy the inventory of the store by pouring the milk down the drain and / or confiscating raw cheese and fresh produce for destruction. Video now posted at NaturalNews.TV: <http://www.naturalnews.tv/v.asp?v=A...>

TVNL Comment: How is THIS for "freedom?" Yet, there are no raids on cigarette companies, whose product are the only product that when used as directed will kill you. There are no raids on bio weapons labs. Don't try and justify this story...there is no justification. Raw milk has many health benefits, that is the real problem. That is a problem for big pharma.
