

A leaked U.S. Army document prepared for the Department of Defense contains shocking plans for “political activists” to be pacified by “PSYOP officers” into developing an “appreciation of U.S. policies” while detained in prison camps inside the United States.

The manual outlines policies for processing detainees into internment camps both globally and inside the United States.

Aside from enemy combatants and other classifications of detainees, the manual includes the designation of “civilian internees,” in other words citizens who are detained for, “security reasons, for protection, or because he or she committed an offense against the detaining power.”

Once the detainees have been processed into the internment camp, the manual explains how they will be re-educated, with a particular focus on targeting political dissidents, into expressing support for U.S. policies.
