

"In [this historic 16th Amendment litigation](#) , the Government has sued Bill Benson seeking an injunction prohibiting him from falsely telling people the Sixteenth Amendment to the United States Constitution was not ratified and therefore people are not required to file an income tax return. The Government contends it is entitled to an injunction because Benson is promoting an abusive tax shelter, conduct made subject to a penalty per 26 U.S.C. Section 6700."

This case isn't about tax evasion or "paying your fair share." Benson has never promoted any form of abusive tax shelters. It is about the First Amendment. It is about oppressive government deciding they can change the language of the First Amendment to suit their own totalitarian needs. It is about real men who have sacrificed their freedom (Bill Benson), good times and forget getting paid big legal fees (Becraft and Dickstein) the whole way to stand and fight for what is right. Now, we must fight with them with our support.
