

Live Broadcast: Wednesday, June 30th, 2008 - 8:00 PM ET.

While the establishment media tell you that 100-year-old auto companies do not have the brain power to design a car engine that dramatically improves fuel economy, Doug Palmea went ahead and out-brained them all...or did he? Did Mr. Palmea invent some mysterious new energy technology or is he just the one person who wants the public to know that this kind of technology is not only possible, but is available now!
