

Mexican mayor slain one day after taking office

Saturday, 02 January 2016 22:44 -

The mayor of a municipality in Mexico was slain by armed men inside her home on Saturday -- one day after taking office.

Gisela Mota Ocampo was sworn into office Friday to lead Temixco, a city of nearly 100,000 people 60 miles south of Mexico City.

The attackers entered her house Saturday morning while her family was present and killed her in the doorway, said Alberto Capella, Morelos state security commissioner, at a press briefing.
