

A third COVID-19 vaccine is on the way, and this one requires only one shot for immunization.

The Food and Drug Administration [authorized Johnson & Johnson's vaccine](#) for emergency use Saturday, a day after a panel of advisers to the agency voted unanimously (22-0) in its favor.

"The authorization of this vaccine expands the availability of vaccines, the best medical prevention method for COVID-19, to help us in the fight against this pandemic, which has claimed over half a million lives in the United States," said a statement by Acting FDA Commissioner Janet Woodcock.
